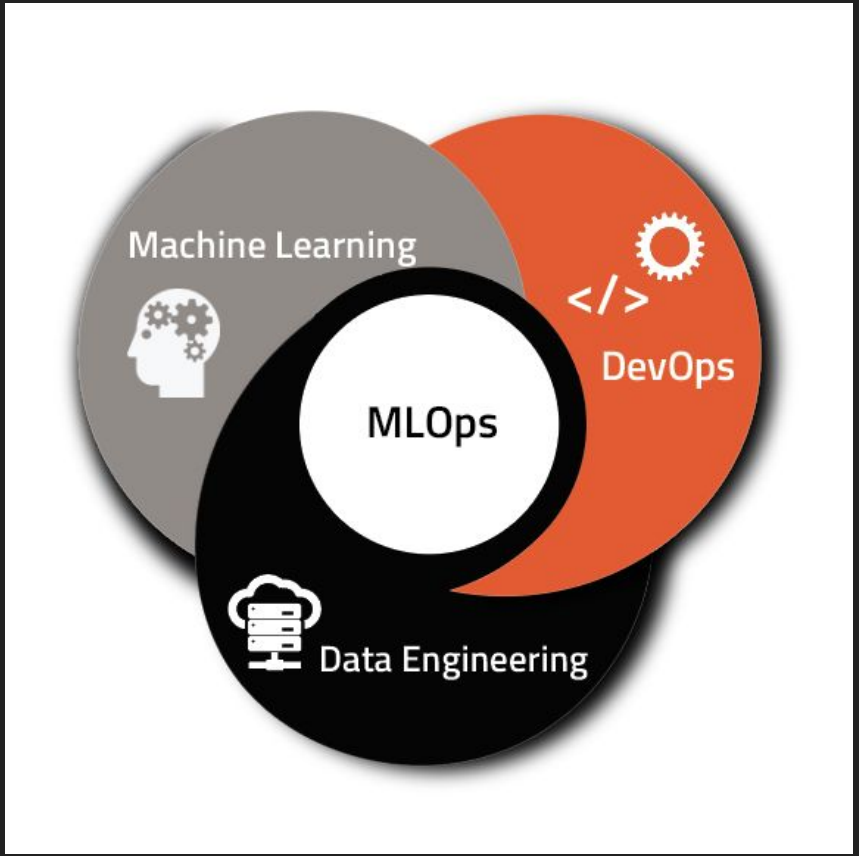
MLOps using GitHub:

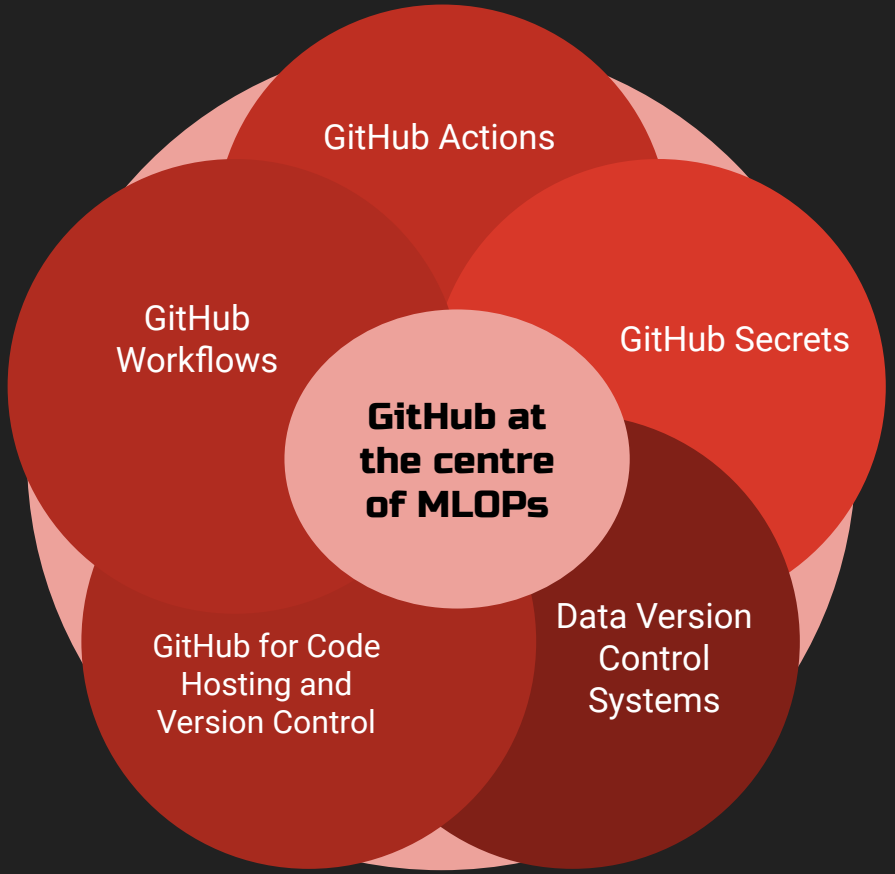
An E2E Journey

Shruti Chaturvedi

Continuous (Xs?) in MLOPs .. ?

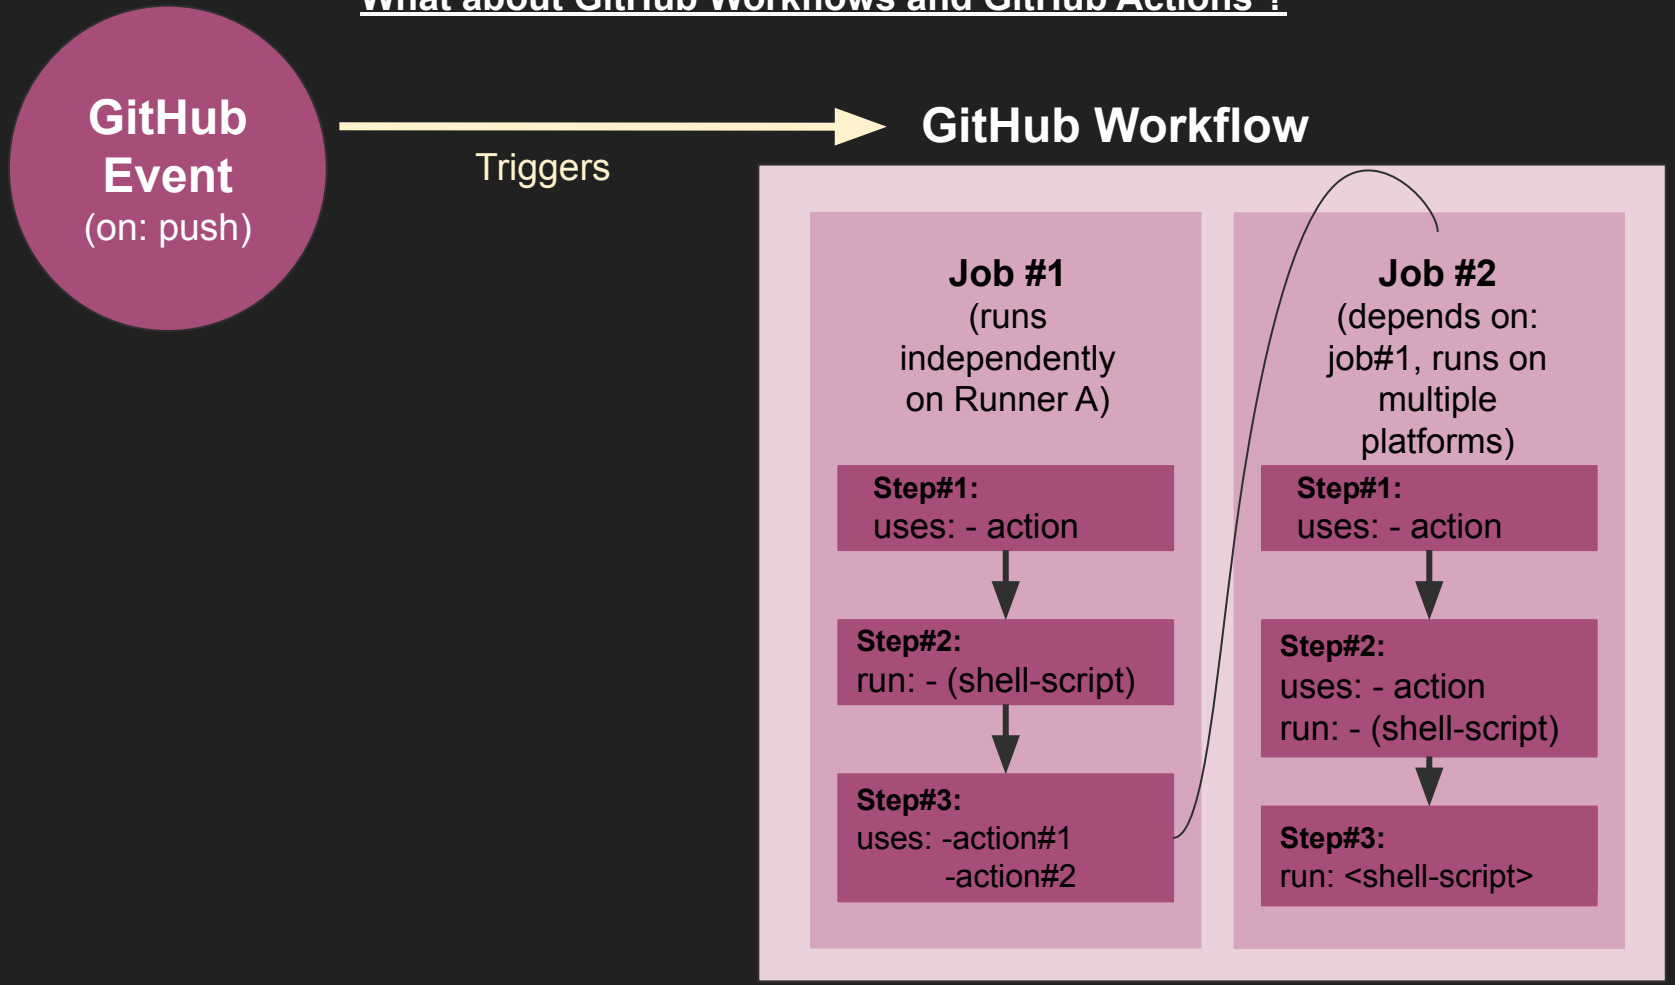
- Continuous Training
- Continuous Delivery
- Continuous Integration
- Continuous Monitoring

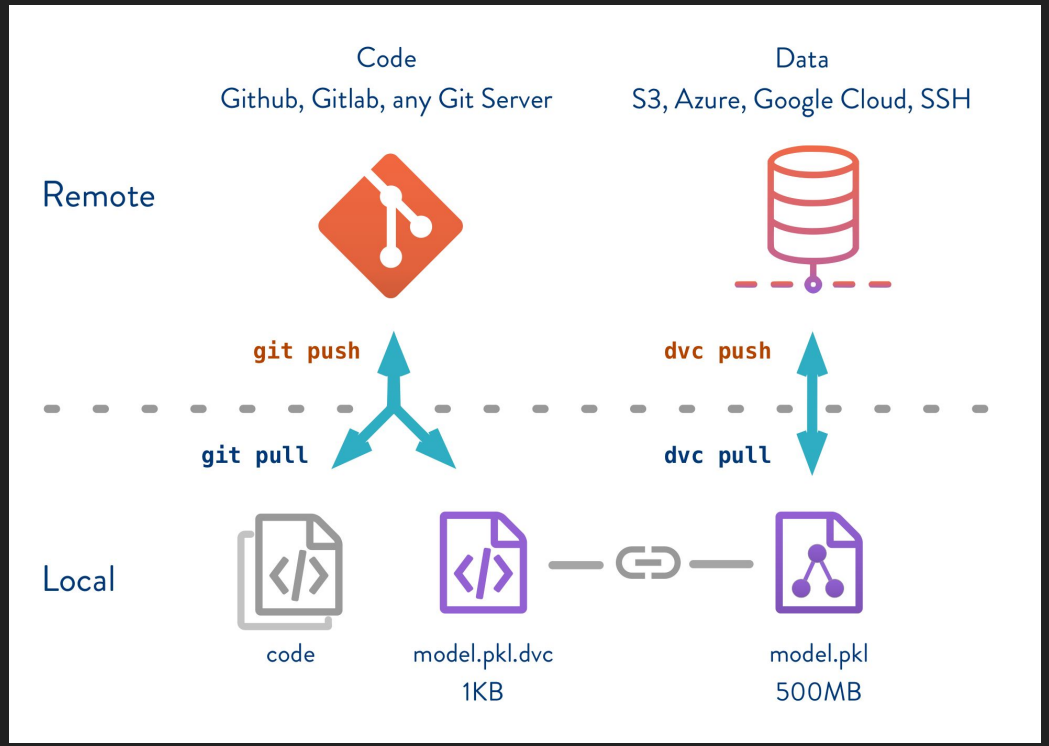




GitHub Actions
GitHub Workflows
GitHub Secrets
GitHub at the centre of MLOPs
GitHub for Code Hosting and Version Control
Data Version Control Systems

What about GitHub Workflows and GitHub Actions ?





“DVC is for data what Git is for Code”

--- DVC is built on top of Git to track versions of data.

--- Versions of data can be switched by tagging git branches

LET'S
CODE
THIS.
THE HOME DEPOT
command
option
command

That's a Wrap!
Time for Q/A

Thank you
