Hi

I've fixed a translation error ("Puratale" is a french word that refers to a real bug, with legs and all that kind of stuff) and also changed some words and punctuation marks that I found more relevant.

Feel free to ask me anything regarding this commit.

Je doute de cette technique mais j'en profite pour rajouter une info: ne faites pas vos CV sur photoshop, ils ne passent pas les filtres des logiciels RH car un pdf fait sous photoshop c'est une image sans texte exportable twitter.com/MaxLdr/status/...
